

Software Test Document

Project: QueueBoard | Synthetic case: G2-09

SYNTHETIC FICTIONAL BENCHMARK. These example plans, expected outputs and scripted results are NOT records of executed software tests or student work.

Purpose of Checks

This fictional STD outlines planned QueueBoard acceptance and blank-input checks. No production software was exercised.

Inputs

DEMO-A and an empty example label.

Illustrative Outcomes

Expected OPEN slot for DEMO-A and REJECT_EMPTY for blank label. These results are purely scripted examples.
