3. Test Cases 4

Appendix (Test Logs) 5

1. Introduction

WildTrack is a capstone submission workflow that lets configured students submit link-based deliverables, lets advisers review responses and Document Check findings, and lets Admin users manage academic workflow configuration.

1.1. System Overview

The campus garden program coordinates seed exchanges, composting schedules, shaded seating, volunteer watering rotations, and seasonal planting workshops for neighborhood participants.

1.2. Test Approach

A fictional travel club compares ferry timetables, museum opening hours, food-market routes, luggage limits, and weekend itineraries for visitors planning an island trip.

1.3. Definitions and Acronyms

An imaginary bakery tracks flour deliveries, oven temperatures, packaging designs, loyalty cards, storefront promotions, and daily pastry inventory for its retail operations.

2. Test Plan

The following feature scope and environment are frozen for this synthetic benchmark fixture.

2.1 Features to be Tested

A reading group organizes monthly novels, discussion prompts, room reservations, lending copies, guest speakers, and attendance reminders for community members.

2.2 Features not to be Tested

The campus garden program coordinates seed exchanges, composting schedules, shaded seating, volunteer watering rotations, and seasonal planting workshops for neighborhood participants.

3.3 Testing Tools and Environment

A fictional travel club compares ferry timetables, museum opening hours, food-market routes, luggage limits, and weekend itineraries for visitors planning an island trip.

3. Test Cases

Controlled Test Case 1

3.1.1 Purpose

An imaginary bakery tracks flour deliveries, oven temperatures, packaging designs, loyalty cards, storefront promotions, and daily pastry inventory for its retail operations.

3.1.2 Inputs

A reading group organizes monthly novels, discussion prompts, room reservations, lending copies, guest speakers, and attendance reminders for community members.

3.1.3 Expected Outputs & Pass/Fail Criteria

The campus garden program coordinates seed exchanges, composting schedules, shaded seating, volunteer watering rotations, and seasonal planting workshops for neighborhood participants.

3.1.4 Test Procedure

A fictional travel club compares ferry timetables, museum opening hours, food-market routes, luggage limits, and weekend itineraries for visitors planning an island trip.

Appendix (Test Logs)

The synthetic test log below separates expected outcomes from controlled fixture observations.

A.1 Log for Test 1

An imaginary bakery tracks flour deliveries, oven temperatures, packaging designs, loyalty cards, storefront promotions, and daily pastry inventory for its retail operations.

A.2 Test Results

A reading group organizes monthly novels, discussion prompts, room reservations, lending copies, guest speakers, and attendance reminders for community members.

A.3 Incident Report

The campus garden program coordinates seed exchanges, composting schedules, shaded seating, volunteer watering rotations, and seasonal planting workshops for neighborhood participants.
